Campus Safety - General Security Information

Security at Grove City College

Grove City College is an independent four-year liberal arts institution located in Grove City, Pennsylvania. Situated in a small community with a population of 8,000, it is located 60 miles north of Pittsburgh. The town has diversified industries, is a strong church community and has great pride in its college. At present there are approximately 2,200 full-time and 180 part-time undergraduate and graduate students. There are also 460 full-time and 84 part-time employees at Grove City College.

For more than 140 years Grove City College has emphasized academic excellence and has enjoyed a strong reputation for quality education in a thoroughly Christian environment. This has allowed the College to attract students and staff who have strong moral values, which lead them to respect each other as well as the property of others. The College has had a reputation for enjoying a safe and secure campus. The College provides this pamphlet in compliance with the Pennsylvania Uniform Crime Reporting Act. It also is voluntarily reporting this information under the Student Right-To-Know Act even though it is not required to do so, as the institution does not receive any federal funding.

Security Personnel:

Answering to the Vice President for Student Life and Learning, the Campus Safety Department is responsible for maintaining a safe and secure campus environment. The Campus Safety Office is centrally located in Crawford Hall and officers are on duty 24 hours/day.

The Safety staff includes a Director, Assistant Director, Communications coordinator, an events manager, 11 full-time and 1 part-time patrolmen. Additional supplementary personnel and student workers are engaged for special events on campus that generate many visitors and traffic. Campus Safety Officers are trained professionals in Act 120 (PA municipal police training) and/or Act 235 (application of force training), First Aid, CPR and AED. All have experience in security, law enforcement, public safety, or the military.

Campus Safety Responsibilities:

Campus Safety personnel are primarily responsible for the safety and security of the campus community and the enforcement of campus rules and regulations. Campus Safety staff members are not sworn law enforcement officers. All uniformed officers are trained and authorized to carry pepper spray. Many Campus Safety personnel are authorized to carry lethal weapons to defend the campus community from violent criminal activity. In its discretion the College will immediately and directly report criminal incidents to the Grove City Police and/or Pennsylvania State Police. The College enjoys a close, cooperative relationship with these and other regional emergency service agencies. If Grove City College students become involved in criminal incidents occurring off campus, these agencies often contact College officials.

The campus is monitored and evaluated 24 hours a day by safety personnel on foot, in vehicles and on bicycles. Closed circuit television cameras record activity in many parking lots and other public locations. Safety personnel are equipped with portable radios and cell phones which provide constant communication to all parts of the campus, as well as direct communication with the Grove City Police Department and local ambulance service. Cell phones provide the ability to communicate rapidly with Mercer County 911, the State Police, and the local fire department.

Safety Officers respond to all health emergencies, injuries and accidents reported on campus. Depending upon the circumstances, Officers will provide or arrange for emergency transport and medical care at the Zerbe Health and Wellness Center or at the local hospital, AHN Grove City.

Procedures:

Students and employees are encouraged to report immediately all criminal acts or other emergencies to the Campus Safety Department. Reports can be made directly to the office in Crawford Hall or by phoning the Safety Office at 724-458-2111 or the Emergency line at 724-458-3000 (staffed 24 hours a day). Emergency phone numbers are prominently listed on the inside front cover of the student handbook as well as in other publications and locations around campus. Freshmen students are also instructed to program the Campus Emergency number into their phones during one of the first meetings held on campus. A Campus Safety officer responds to and investigates all incidents reported.

General Security Measures and Policies

Including the Safety staff, approximately 525 faculty,

administration and staff are employed by the College. Together they comprise a large network committed to serving students and to maintaining a safe and secure community.

Classroom buildings are monitored informally during the daytime by faculty and staff members who work in those buildings. During evening hours some classroom buildings are open to the general population. They are used for organizational meetings as well as for studying. Adult and/or student staff are employed to monitor the buildings and those individuals or groups who use the facility. Other facilities may be open on an as needed basis. Reservations for the use of campus facilities must be made in advance with the Campus Events Coordinator.

An escort service is available from dusk to dawn during the academic year for any member of the College community who desires to be escorted from one place to another on the campus. An escort can be obtained by contacting the Campus Safety Department at 724-458-2111, or by activating one of many emergency call boxes located throughout the campus. A Campus Safety staff member is dispatched when a request is received.

The campus grounds are evaluated routinely to ensure security and safety at Grove City College. Wooded areas are cleared out periodically to enhance the safety of students, employees, and visitors. Outdoor lighting is also evaluated on a routine basis.

Soliciting is not permitted in residence halls. College rules state that salespersons must have approval of the Vice President for Student Life and Learning to be elsewhere on campus. College rules permit visitors to campus only if they have a student, departmental or faculty host or if they are attending a public event. In reality, however, it is impossible to secure an open campus from all visitors. Additional security measures observed with respect to residence hall access are discussed below.

Registration is required for all vehicles of administration, faculty, staff, students, and visitors. Visitors may request a free temporary vehicle registration 24/7 by contacting Campus Safety. Safety Officers routinely ticket unregistered vehicles parked on campus. Failure to respond to a ticket may result in the offending vehicle being towed at the owner's expense. Many parking lots and other public areas are monitored by CCTV cameras to discourage crime or mischief.

The Grove City admissions application does ask applicants about prior criminal convictions, and all employees and faculty undergo a criminal history check

prior to hire. The College endeavors to enroll students and to hire employees who are people of good character.

The possession and/or use of any type of weapon (gun, knife with blade longer than 4", etc.), except by law enforcement or authorized Public and Campus Safety personnel, is not permitted on the Grove City College campus. The Safety Department maintains a log of all crimes and fire related incidents that are reported to them. This log is available to the public during business hours at their office in Crawford Hall.

The College also maintains a counseling center that includes an on-call counselor 24/7 in the event a student requests to talk to one, or if a member of the Student Life & Learning team or Campus Safety team feel a student may be at risk of self-harm or harm to others.

Student Housing Safety Info

Policy:

Full-time Grove City College students live on campus with the obvious exception of commuter students, who in most cases are required to live with their families. The total number of resident students is approximately 2,200. Commuter students at Grove City College are full-time students who live with their parents or legal guardians, normally within a radius of 40 miles of Grove City. Veterans and those returning to college from the working world may qualify for approved commuter status if there is significant age differential between them and students in their class living on campus. Campus housing consists of single-sex residence halls, suite-style rooms, and apartment style housing which have single rooms, doubles, triples, or quadruples. No housing is available on campus for married students. All Greek organizations and housing groups are housed within the residence halls. (No off-campus group housing.)

New students are assigned rooms and roommates for their first year. Each spring, upperclassmen select rooms for the coming year by a room selection process with upperclassmen having priority. Any student whose roommate is engaged in any violation of campus rules and regulations is encouraged to contact a member of the residence hall staff for assistance.

Supervision:

The residence hall staff provides supervision of the students living in each building and consists of a Residence Director and Resident Assistants. Residence Directors, full time Student Life staff who reside in apartments in the residence halls, have primary

responsibility for security within the building. They are assisted by upper class students who are selected, trained, and employed by the College to serve as Resident Assistants. A total of 103 residence hall staff members are trained in college security standards, policies and procedures at orientation and training sessions before the academic year begins. During the academic year, security procedures are highlighted during the ongoing training which takes place at weekly staff meetings. Campus security procedures are presented and discussed by students and residence hall staff at periodic mandatory meetings.

The live-in professional staff members are present in the residence halls to maintain a safe and secure atmosphere conducive to an academic environment. Safety staff members and residence hall staff make routine, periodic checks during the evening and early morning hours to ensure the security of residence halls and surrounding areas.

Housing Security Measures:

All exterior doors to the residence halls and many interior doors are equipped with electronic locks and proximity card readers. This system requires a valid GCC ID card for entry into the living areas of the buildings. If a door is forced open or held open for an extended time, an alarm sounds at the site until the door is properly secured. Students are encouraged to report lost or stolen ID cards immediately (24/7) to the One-Card office in the TLC during business hours or to the Campus Safety Department after hours where the misplaced card will be deactivated, and a temporary card issued. Visitors may contact residents of the halls by way of public phones which are placed outside the main entrance to each of the Residence Halls. During the evening and midnight hours, exterior doors are regularly checked by patrolling safety personnel. Students are also issued keys to their rooms and are encouraged to lock their doors. All windows can be locked as well. Public phones are conveniently placed outside residence hall main entrance doors and in many common areas.

Limited open hours are permitted in the residence halls: Wednesday evening from 7 p.m. until 10 p.m.; Friday from 7 p.m. until 12 midnight; Saturday from 1 p.m. until 12 midnight; and Sunday afternoons from 1 p.m. until 10 p.m. Some additional inter-visitation hours are observed in the Colonial Hall apartment building. Resident Assistants in each residence hall monitor the building during intervisitation periods. Students hosting overnight guests of the same gender in their residence hall are required to notify their Resident Director of their visitor, including their guest's name and emergency contact number.

During low occupancy periods such as holidays and vacations, student housing is normally closed except for College affiliated teams and groups who must remain for scheduled competitions or events. A Campus Safety officer is on campus and makes regular, unscheduled walk-throughs of those areas. Coaches are on call if a situation should occur. Residence Directors who happen to be on campus may aid as well. A Student Life and Learning administrator is always on call. During summer months, College facilities may be used by conferences and for faculty/student research. At all times Campus Safety personnel are on duty to safeguard the campus community.

Fire safety is carefully monitored by Campus Safety personnel, residence hall staff and maintenance personnel. All residence halls are equipped with sophisticated, networked fire alarm systems that include heat detectors, smoke detectors, audible and visual fire alarms. Most residence halls also have complete sprinkler system coverage. All fire systems are checked regularly by the Maintenance Department and are monitored 24/7 by safety personnel to ensure that they are in working order and to provide immediate response to alarm activations. Fire drills are conducted in every residence hall at least once each semester. Resident students are instructed in proper fire evacuation procedures at the beginning of each academic year. A map and instructions for evacuating the building are posted in each room. All campus buildings are smoke-free.

Campus Safety - Drugs & Alcohol

Grove City College is concerned with the spiritual, moral, intellectual and character development of its students and staff. The use of illegal drugs and the misuse or abuse of alcohol or prescription medications does result in the disruption of educational and career goals and poses serious health risks. Consequently, the College has adopted the following policies relative to illegal drugs and alcohol.

Grove City College abides by the Pennsylvania Uniform Controlled Substance, Drug, Device and Cosmetic Act, and the Pennsylvania State Liquor Laws, as well as Federal law. Sanctions for violations of these laws are printed in the College Student Handbook, **The Crimson**. The College also complies with the Drug Free Schools and Communities Act.

Grove City College prohibits the unlawful possession, use, sale and/or distribution of illegal drugs by students

and employees on any part of the College campus and/or at any activity sponsored by the College or any approved organization of the College held on or off campus. The College also prohibits the possession, use, sale and /or distribution of alcoholic beverages by students and employees on any part of the College campus, and/or at any function or activity sponsored by any approved student organization of the College held on or off campus.

Sanctions:

Students found possessing, producing, selling, or using illegal drugs will be immediately dismissed from the College. The College will impose sanctions on students who violate the alcohol policy, which may include suspension or dismissal. The College may also require a student to successfully complete a prescribed program of education, intervention or counseling approved by the College.

Employees violating drug and alcohol policies receive appropriate disciplinary action, which may include termination. The College reserves the right to refer for prosecution by federal, state, and local authorities any person who violates the above drug and alcohol policies.

Students and College employees may also have sanctions imposed if disorderly or other inappropriate behavior on campus results from the consumption of alcohol while off campus. Drug and alcohol policies are vigorously enforced by Safety personnel, residence hall staff, faculty, and administration. The College alcohol and drug policies are clearly stated in the student handbook, **The Crimson**, and in all employee handbooks.

Drug and Alcohol Abuse Prevention:

Drug and alcohol prevention publications are available to all students in the College's Health and Wellness Center. All Residence Hall Staff are trained in the method of referral to our College Counseling Center should drug or alcohol counseling be requested or needed.

Drug and alcohol counseling and treatment are available in the community through the Grove City College Counseling Center and Sharon Regional Healthcare System. The College actively will assist any individual who seeks a program of education, intervention, or counseling.

Campus Safety - Sexual Violence

Policy:

Sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent (e.g., due to the student's age or use of drugs or alcohol, or because an intellectual or other disability prevents the student from having the capacity to give consent. Being under the influence of alcohol or drugs is never a defense or an excuse for committing sexual violence.). Several different acts fall into the category of sexual violence, including rape, sexual assault, sexual battery, sexual abuse, and sexual coercion. Sexual violence can be carried out by school employees, other students, or third parties. All such acts of sexual violence are both a crime and a violation of the College's standards of conduct.

Procedures to follow if a Victim of Sexual Violence

If sexual violence occurs on campus, the victim should report the incident immediately to either the Safety Department, a Residence Life Professional Staff Member, the Associate Dean of Students, or the Vice President for Student Life and Learning. Nursing and Counseling personnel are also available for medical and emotional support. The Associate Dean of Students shall be contacted in the event of any report of sexual violence. The victim is advised to preserve all evidence of the crime and to inform College officials of what evidence he/she may have. The victim should not shower, bathe, or brush his/her teeth so that physical evidence can be collected. The College representative may also take steps necessary to preserve such evidence. In the case of an alleged rape, the victim may choose to be taken immediately to AHN Grove City for examination. The victim shall be informed of his/her option to notify law enforcement authorities. If desired by the victim, a Student Life and Learning or Campus Safety staff member will contact law enforcement authorities on behalf of the victim or assist the victim in doing so. It is the policy of the College to encourage the report of all sexual violence to law enforcement.

The accused as well as the accuser will be informed of counseling options and assistance and arrangements for counseling will be provided, if desired. Student Life and Learning staff will assist the alleged victim in changing academic and living situations after a report of sexual violence, if so, requested by the alleged victim and if such changes are feasible.

The campus community will be notified of all sexual violence occurring on campus except in the case of allegations of date or acquaintance rape. The investigation of alleged sexual violence on campus (except date and acquaintance rape) will be conducted by the Grove City Police department or PA State Police.

In the event of an alleged date or acquaintance rape, the appropriate police agency will be notified at the victim's request.

The Vice President for Student Life and Learning, with the assistance of other appropriate personnel, will conduct disciplinary proceedings if the individual accused of sexual violence, is another student. The accused will be informed of the facts alleged in the report, including the identity of the complainant, so that the accused may respond. The accuser and the accused may ask another member of the campus community, other than a professional lawyer, to be present with them, or in their stead, during a campus disciplinary proceeding. Both the accuser and the accused will be informed of the outcome of any campus disciplinary proceedings.

When investigating reports of sexual violence, the College will strive to respect the accuser's and accused's desire for confidentiality. However, the College must retain the option to investigate and take appropriate action when necessary for the benefit of the entire campus community. Once an investigation has begun, the College will take all reasonable steps consistent with a sound investigation, legal requirements, and personal safety to minimize the distribution of specifically identifying information about the alleged incident.

Sanctions:

In the event a student is alleged to have been sexually assaulted by another student, the accused student may be suspended immediately for an indefinite period until a determination of guilt or innocence has been made. If found guilty of any form of sexual violence the accused student may be dismissed permanently from the College.

Sexual Violence Prevention Education:

Grove City College recognizes the need to educate the College community concerning sexual violence. New student orientation includes a mandatory program on sexual violence and upperclassmen are encouraged to attend yearly offerings on the same topic. Information concerning sexual violence is also available to the College community at both the Campus Safety Office and Student Health and Wellness Center. Students also receive educational brochures via campus mail that address sexual violence prevention and the College's sexual violence protocol.

The College also offers awareness training which includes prevention, risk reduction and avoidance.

Missing Student Policy:

It is the policy of Grove City College to actively investigate any report of a missing student who is enrolled at the College. As part of the College's normal enrollment process, students are asked to provide names and contact information for their parents, guardians, or other contacts for emergency use. For any resident under the age of 18, and not an emancipated individual, the College will notify a custodial parent or guardian no later than 24 hours after the time that the resident is determined to be missing by Student Life and Learning or Campus Safety staff.

Most missing person reports in the college environment result from students changing their routines without informing roommates and friends of the change. For purposes of this policy, a student will be considered missing if a roommate, classmate, faculty member, friend, family member, or other campus person has not seen or heard from the person in a reasonable amount of time.

In general, a reasonable amount of time is 24 hours or more but may vary with the time of day and information available regarding the missing person's daily schedule, habits, and reliability. Individuals will also be considered missing immediately if their absence has occurred under circumstances that are suspicious or cause concern for their safety.

Students who are discovered to be missing or unaccounted for by friends, faculty or staff should be reported to the Office for Student Life and Learning and/or to the Campus Safety Department. Student Life and Learning staff will report all missing students to the Campus Safety Department immediately and vice versa.

If a member of the campus community has reason to believe that a student is missing, all efforts will be made immediately (no waiting period) to locate the student to determine his or her state of health and well-being. These efforts include, but are not limited to, checking the resident's room, class schedule, friends, ID card access history, contacting local law enforcement agencies, locating the resident's vehicle, and calling available phone numbers.

Campus Safety will continue to investigate utilizing established investigative procedures and in collaboration with staff from Student Life and Learning. Campus Safety also will co-ordinate its efforts with outside law enforcement agencies when necessary, and always in full compliance with legal obligations and good police practice.

The following circumstances may not in and of themselves constitute a missing student:

1. A parent, friend or other person has been unable to contact a student for a couple of hours.
2. A student has not returned a parent's, friend's or other person's phone call, email, text, or other message in several hours.
3. A student did not attend class.

Campus Safety - Safety Education

Members of the Campus Safety Department communicate periodically with each campus department, to remind them of measures which are necessary to maintain a safe and secure campus. During the training period for the residence hall staff, safety and security measures are reviewed in detail. The Director of Safety also attends the freshman orientation program to explain campus security measures, procedures, and practices. Articles emphasizing campus security measures are featured periodically in the campus newspaper. Bulletin boards around the campus and the College website are utilized to highlight safety announcements.

Timely announcements are sent to the campus community regarding security and safety matters including crimes considered by the institution to be a threat to students and employees as well as other emergency situations. A variety of communication mediums are used for these communications to the student body. Various department supervisors distribute the notices to employees. All campus constituents are urged to be responsible for their own safety and for the safety of others.

Incident Management Team and Emergency Operations Plan

The College's Incident Management Team consists of administrators and staff who are charged with planning and preparing to respond to emergencies that may affect the College campus or community. This team meets regularly and continuously evaluates, revises, and maintains preparations for emergency response and business continuity.

The Emergency Operations Plan (EOP) provides guidelines describing the incident preparedness and emergency response programs for various situations that may affect the campus community. The purpose of the EOP is to provide clear and effective coordination and communication for the various departments and

individuals responsible for responding to campus emergencies.

The College maintains a variety of mass notification systems to alert the campus to situations that merit the attention of campus constituents. Mass notifications may be made via email, cell phone, text message voicemail, and/or a public address system that provides notification to outdoor areas of the entire campus. The College subscribes to the Omnilert Campus alert system. All College employees and students are given access to their own accounts and are encouraged to maintain their preferred and most up-to-date contact information. The College conducts testing of the plan periodically and expects the cooperation of all members of the College community.

Campus Safety – Crime Statistics 2022-2024

	2024				2023				2022			
	Number of Offenses			Crime Rate per 100,000	Number of Offenses			Crime Rate per 100,000	Number of Offenses			Crime Rate per 100,000

Grove City College provides this report in compliance with the Pennsylvania Uniform Crime Reporting Act [Formerly the College and University Security Information act 22 Pa. Code S 33 and 24 Pa. Cons. Stat. Ann. S 2502 (Purden 1989)] which requires disclosure of the statistics for the most recent three-year period. Grove City College also is voluntarily reporting this information under the Federal Student Right-To-Know Act even though it is not required to do so.

¹ Other Offenses are offenses defined in the UCR handbook as “all other offenses.” These include but are not limited to trespassing, harassment by communication, fireworks possession, and drug paraphernalia violation.
