

Nursing – Prerequisite Guide

These guides should only serve as a basis for planning your undergraduate studies. The final decisions on course selections should be made by the student in conjunction with:

- Your academic advisor
- A member of the Pre-Health Professions Advisory Committee
- Admissions requirements of particular graduate or professional programs.

Preparation for a career in nursing is well served by an undergraduate education that is broadly-based in liberal arts and sciences. Specific science courses could include:

BIOL 101	General Biology I
BIOL 102	General Biology II
BIOL 234	Cell Biology
BIOL 302	Developmental Biology
BIOL 341	Human/Mammalian Anatomy
BIOL 346	Human/Mammalian Physiology

CHEM 101	General Chemistry I
CHEM 102	General Chemistry II

EXER 254	Nutrition in Sports and Exercise
----------	----------------------------------

PSYC 201	Statistical Methods
PSYC 209	Child Development
PSYC 211	Adult Development and Aging
SOCI 101	Foundations of Sociology

Additional Offerings:

BIOL 233	Genetics
BIOL 334 or CHEM 351	Biochemistry
BIOL 407	Microbiology
EXER 390	Study: Medical Terminology
