DEPARTMENT FACULTY
Erik J. Anderson, Ph.D.
Professor of Mechanical Engineering
Erik R. Bardy, Ph.D.
Professor of Mechanical Engineering;
Field Director, Stan and Karen Office of
Global Programs
Michelle A. Clauss ’83, Ph.D.
Chair; Professor of Mechanical Engineering
John M. Dixon ’05, Ph.D.
Assistant Chair; Associate Professor of
Mechanical Engineering
Mark C. Fair ’85, Ph.D.
Professor of Mechanical Engineering
and Physics
Qiuyan Li, Ph.D.
Assistant Professor of
Mechanical Engineering
George A. Richards, Ph.D.
Associate Professor of Mechanical
Engineering
Vern W. Ulrich, Ph.D., P.E.
Professor of Mechanical Engineering

DEPARTMENT DESCRIPTION
Mechanical Engineering is a broad discipline that develops technological solutions to societal problems in order to benefit mankind. Graduates apply their skills to a vast array of areas including but not limited to robotics, renewable energy systems, medical devices, fuel efficient automobiles and building climate control systems.

MAJOR
Mechanical Engineering
The Bachelor of Science degree in mechanical engineering prepares students for graduate work and employment in engineering research, design, manufacturing, production, sales and management. Students complete 100 hours of course requirements in addition to the College core curriculum, which starts with an exposure to the fundamentals of science and engineering and culminates in a capstone design project.

MINOR
Robotics
The field of robotics is developing rapidly and Grove City is excited to be devoting important resources to the development of this discipline. Students complete 19-20 hours of course requirements (no additional credits are required; students take alternate classes to fulfill mechanical engineering requirements). Courses feature hands-on learning experiences, practical design, and programming, all using state of the art robotics equipment in dedicated labs.

ACCREDITATION
The mechanical engineering program at Grove City College is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

ON-CAMPUS ENGINEERING ORGANIZATIONS
The American Society of Mechanical Engineers, American Society of Heating, Engineers with a Mission, Refrigerating and Air Conditioning Engineers, Society of Automotive Engineers and the Society of Women Engineers are active groups on campus.

STUDY ABROAD OPPORTUNITIES
There are many ways to gain technical elective, humanities, and general education credit through short and mid-term study abroad opportunities. These include 4-6 week summer trips in France (ICAM Summer Program in Engineering in Vannes, France), and 2-3 week faculty led travel programs to destinations in Europe, Asia, and throughout the world.

UNDERGRADUATE RESEARCH OPPORTUNITIES
Opportunities exist for students to become involved in research throughout the school year and/or summer. Current research areas include alternative energies, biomimetic propulsion, experimental fluid dynamics, light alternative vehicles, biomedical instrumentation, control systems, electrostatics applied in the food drying industry, and more.

INTEGRATION AND GRADUATION OPPORTUNITIES
Graduates enjoy a wide variety of employment opportunities and have been hired by companies such as Bechtel Plant Machinery, General Electric, Honda R&D Americas, Northrop Grumman, Rolls Royce Nuclear Services, Toyota Motor Engineering & Manufacturing and Westinghouse Electric Company. Many of our students have gone to graduate schools such as MIT, Princeton, Notre Dame and Penn State.

The low student to faculty ratio within the Mechanical Engineering program gave me high accessibility to my professors. I was able to receive focused assistance with coursework and build relationships with professors that enhanced my Grove City College experience.
